

A modern office interior featuring a curved glass partition that separates a workspace. Inside the glass enclosure, there is a black desk with a modern chair. Outside the enclosure, a white desk with white chairs is visible. The space is bright, with large windows letting in natural light. The ceiling has exposed ductwork and modern lighting fixtures.

FROM NATURE TO TECHNOLOGY...

We always strive to do things differently and to be the best. This is also the approach for our new and revolutionary system OASIS®. Our vision is to create better buildings for people and nature and that is why we have developed a truly unique new solution for modular office spaces.

We have built it upon three key elements: organic design, innovative technology, and exceptional acoustics. An oasis of silence and beauty which offers the best ways to create and cooperate in any busy workplace.

Technologies of the future for your office today.

OASIS OF SILENCE WITH ORGANIC DESIGN

When we set out to reimagine the ideal meeting room of the future, we decided to create a timeless organic design that establishes a pleasant and welcoming feeling.

A space that invites you to come in and work.

An oasis of silence that offers you all the top-notch technologies to make you even more productive whilst staying focused and peaceful.

WORK IN PEACE

SEAMLESS EXPERIENCE DRIVEN BY SMART TECH

Oasis combines the best that the smart tech world has to offer. However, it is not only about putting technologies together.

We have developed a simple user experience coming from our own findings of what most modern meeting rooms are missing.

UNLOCK FULL POTENTIAL

WORLD-RENOWNED CZECH GLASS WITH A TWIST

Traditional Czech glassmaking goes back centuries and is famous for its design and craftsmanship.

Merging our 30 years of experience in modern glass partitions with our Bohemian history, Oasis is the world's first smart glass frameless meeting room with rounded corners. The unique outside look is complimented by the hand-crafted crystal lights inside.

TRADITION MEETS FUTURE
